Docket Number:

IOLL-281PC (56246)

Title:

FLUID PURIFICATION DEVICES AND METHODS

EMPLOYING DEIONIZATION FOLLOWED BY IONIZATION

FOLLOWED BY DEIONIZATION

Assistant Commissioner for Patents Washington, DC 20231

Sir:

## PRELIMINARY AMENDMENT

Applicant respectfully requests that the following amendments be made to the above application prior to examination on the merits.

## IN THE CLAIMS:

Please amend the claims as originally filed in the PCT application as follows:

(Amended) A method for removing both (i) ionizable and/or ionized carbon compounds and (ii) non-ionized and/or non-ionizable carbon compounds from water comprising the steps of

- (a) processing a first stream of the water with a <u>first</u> removal apparatus for removing <u>from the water</u> ionized and/or ionizable carbon compounds, <u>wherein at least some of such</u> <u>ionized and/or ionizable carbon compounds are susceptible to conversion to produce a first product stream;</u>
- (b) contacting the first-product stream with an agent for converting] non-ionized and/or non-ionizable carbon compounds [into] by step (b) below, to produce a first product stream containing a smaller concentration of ionized and/or ionizable carbon compounds [to form a second product] than the first stream;
